

Make My Mind Up

Molly Tuttle

When you stood by the door
In the pouring rain
Thought I knew for sure
But this was more than a game
Now I'm racin' around
And back again
'Cross the same old ground
I did before

If I could ever make my mind up
I could ever make my mind up
If I could let my heart choose

Am I just afraid
To let you in?
Love's been away so long
That my head's spinning
'Cause it feels all right
Then it feels all wrong
When I'm driving home at night
It's the same song

If I could ever make my mind up
I could ever make my mind up
If I could let my heart choose
If I could ever make my mind up
I could ever make my mind up
I'd turn this car around and come back to you

I'm bein' cruel and your hands are tied
I'm breakin' the rules
Should I tell you goodbye?
And try to forget
The chance we have
Love's a losing bet
But I'd go out on the line

If I could ever make my mind up
I could ever make my mind up
If I could let my heart choose
If I could ever make my mind up
I could ever make my mind up
I'd turn this car around
I'd turn this car around
I'd turn this car around and come back to you
