

## Sleepwalking

Molly Tuttle

If I drove into the sea  
Float away with the fear  
Be my anchor, please  
'Cause your voice is all I need

Keep talking  
Now we're sleepwalking  
Though a world that disappeared  
Bad habits  
Burn like TV static  
But you're comin' in clear

Smoke is rising from the street  
Once you said love was free  
Show me what you mean  
Close my eyes and guide my feet

Keep talking  
Now we're sleepwalking  
Though a world that disappeared  
Bad habits  
Burn like TV static  
But you're comin' in clear

Don't let me go, don't wake me  
Take me down to where the waves are breaking  
When the shiny city falls into the sea  
I'll let the sound of your voice carry me

Keep talking  
Now we're sleepwalking  
Though a world that disappeared  
Bad habits  
Burn like TV static  
But you're comin' in clear

Clear, clear  
Comin' in clear
