Zero

Molly Tuttle

Shake it like a ladder to the sun
Makes me feel like a madman on the run
Find me never never far gone
So get your leather, leather, leather on on on on

You're a zero
What's your name?
No one's gonna ask you
Better find out where they want you to go
Try and hit the spot
Get to know it in the dark
Get to know it whether you're a crime, crime, crime of love
So can you climb, climb, climb higher?

Shake it like a ladder to the sun
Makes me feel like a madman on the run
Now you're never never far gone
So get your leather, leather, leather on on on on on

You're a zero
What's your name?
No one's gonna ask you
Better find out where they want you to go
Try and hit the spot
Get to know it in the dark
Get to know it whether you're a crime, crime, crime of love
So can you climb, climb, climb higher?

You're a zero
What's your name?
No one's gonna ask you
Better find out where they want you to go
Try and hit the spot
Get to know it in the dark
Get to know it whether you're a crime, crime, crime of love
So can you climb, climb, climb higher?
Climb, climb, climb higher
