

Aloha

Møme

Soul lover, which way have you moved?
It's been a while since our bodies grooved
Cosmic love gave you something gold
So you wrap it all up and take it

Suddenly it's all real
Suddenly it's all you feel
You're free now
Somehow
Suddenly it's all real
Suddenly it's all you feel
You're free now
You're all you have to give

The unknown now [x4]

The things you've found
You feel a little younger
And you begin to wonder
What is it you want to love
What is it you want to love
What is it you want to love

Suddenly it's all real
Suddenly it's all you feel
You're free now
Somehow
Suddenly it's all real
Suddenly it's all you feel
You're free now
You're all you have to give

The unknown now [x4]

Aloha [repeated]

You release
You give yourself away
To the rhythms of the world
Adored by the sun's rays
What's left to do
But to feel it all
You're alive now to die as dust
Nothing left as something more

Aloha [x4]

Something more

Aloha [x3]
