

Got It Made

Møme

You know where to get it from, you know how to get it from me
Calling me on your way home, cause when your lover brings you down

You go out, on the prowl, you know where to get it from
You know where to get it from

Baby, wanna take a ride with me? Cruise down the 5 with me, I got it made

Come on now

Baby, wanna lose control with me? Yeah you'll be glowing, I got it made

You know where to get it from, you know how to get it from me
Calling me on your way home, cause when your lover brings you down

You go out, on the prowl, you know where to get it from
You know where to get it from

Baby, wanna take a ride with me? Cruise down the 5 with me, I got it made

Come on now

Baby, wanna lose control with me, yeah you'll be glowing, I got it made

Baby, wanna take a ride with me? Cruise down the 5 with me, I got it made

Come on now

Baby, wanna lose control with me? Yeah you'll be glowing, I got it made

Baby, wanna take a ride with me? Cruise down the 5 with me, I got it made

Come on now

Baby, wanna lose control with me? Yeah you'll be glowing, I got it made

I got it made, I got it made, I got it made, I got it made

I got it made, I got it made, I got it made, I got it made
I got it made, I got it made, I got it made, I got it made
