

## Hold On

Møme

Hold on (oh)  
Hold on (oh ah)

When it's all understood  
That you're no good for me  
Laced on your smile  
It seems that you decrease  
You've got a fire in your eyes  
I've never seen before  
Something burning off inside  
And I would like to explore

Just hold on  
Hold on  
To just one more dance with me  
Hold on  
Hold on  
To all this mystery

Hold on  
One dance with me  
Hold on

You've got a fire in your eyes  
Something burning off inside  
And I would like  
Just one touch  
Enough to make you blush  
I think you lost your mind  
But it's not enough  
It's just some crush  
That makes you feel inclined

To hold on  
Hold on  
Oh it burning off the light  
We've only got some now
