

In Control

Møme

I walked every mile, I walked every mile, I had to try to find you

Everybody says, you can't find what doesn't wanna be found now
But these empty roads gave me empty hands, the days and months surround you

The light's going down now, the night's turn to get out

I don't know the way to go, in the dark, you're ready to roam
Scared of what you might become, I don't care, just tell me what you're running from

Tried to make it on your own, you're just trying to find your way home

And I, I won't let you go alone, my ever long

So you're leaving town and you're halfway out, the highway's got you moving

I can't let you leave, you belong to me

I don't know the way to go, in the dark, you're ready to roam
Scared of what you might become, I don't care, just tell me what you're running from

Tried to make it on your own, you're just trying to find your way home

And I, I won't let you go alone, my ever long (my ever long)

Why can't I like it? Like being free

While you were walking, waiting, waiting for me

Oh tonight, might as well ignore the phone

I am alone, I am alone

Find your way home

Find your way home

Find your way home

Find your way home

...

Find your way home

And I, I won't let you go alone, my ever long (my ever long)
