

## It's Okay

Møme

It's okay  
Can't heal it but I feel your pain  
And I lay beside you I can do the prayin'  
I can make you forget the things you still regret  
I think I can protect you from things you will regret

It's okay  
I promise I will stay

It's okay  
Everything would die without some rain  
And I may cause trouble but you won't complain  
I can make you forget the things you still regret  
I think I can protect you from things you will regret

It's okay  
I promise I will stay

It's okay [repeat til end]
