When all my worries are faded
I said love
That's happiness to me
When all my tears start replaying
I said love
That's happiness to me

I won't waste another night
On your love
On your love
I won't waste another night
On your love
On your love

Happiness to me
Happiness to me
Happiness to me
Happiness to me
Happiness to me
Happiness to me
Happiness to me
Happiness to me
Happiness to me

So I dream
That someone takes me there
When the sun melts into the sky
So we can feel good

I won't waste another night
On your love
On your love
I won't waste another night
On your love
On your love

Happiness to me
Happiness to me
Happiness to me
Happiness to me
Happiness to me
Happiness to me
Happiness to me
Happiness to me
Happiness to me
