

Sunday

Møme

I hate to break your silence
But I've seen you once before
Can't help but notice
That you're passing back and forth

You're tryna strike a balance
Outside the uniform
I think it's time to find just what you're looking for

And you got work until Sunday
Waking up late
Get the money
I'll make you late every Monday
If you want lay
If you want me

And you got work until Sunday
Waking up late
Get the money
I'll make you late every Monday
If you want lay
If you want me

And you got work until Sun
And you got work until Sun
And you got work until Sunday
And you got work until Sun
Want to make it for me and you

And if I'm wrong, I'm sorry
But this is something more
I think you see a future
Just beyond the door

You're tryna strike a balance
Outside the uniform
I think it's time to find just what you're looking for

And you got work until Sunday
Waking up late
Get the money
I'll make you late every Monday
If you want lay
If you want me

And you got work until Sun
And you got work until Sun
And you got work until Sunday
And you got work until Sun
Want to make it for me and you

Want to
And you got work until Sunday
And you got work until Sunday
