

## When We Ride

Møme

(Hide down, we hide down)

I told you I can be no help  
But I didn't let down  
I don't know why but I'm in a hotel  
And I'm in the wrong town

We lost ourselves, where we going?  
Where've we got to be tomorrow?  
I hope we can make it rain  
And wash away, work it better

We hide down low when we're rocking out  
We hide down low 'cause we're rocking out  
We hide down low when we ride  
When we ride

I told you I can be no help  
But I didn't let down  
I don't know why but I'm in a hotel  
And I'm in the wrong town

We lost ourselves, where we going?  
Where've we got to be tomorrow?  
I hope we can make it rain  
And wash away, work it better

We hide down low when we're rocking out  
We hide down low 'cause we're rocking out  
We hide down low when we ride  
When we ride
