

## Capable Type

Momma

Greave me, clearly I'm a capable type  
Take me, go ahead and take your bite

I won't let you drain me  
I reason with a demon, he obeys me  
Before you go and try your best to save me  
We're playin' with a capable type

You will not fulfill me  
Pour me up and you are planning just to spill me  
Falling in the deep, and you don't thrill me  
You think that I'm a miserable type

I keep looking out the window  
I keep finding stuff to fight  
I keep looking out the window  
I don't, I don't wanna play nice  
I keep looking out the window  
I keep finding stuff to fight  
I keep looking out the window  
I guess I'm just the capable type

I can show you my insides  
I'm a machine and I don't cry  
I've got a rusty style  
Latched onto copper smiles  
I can pretend to be sweet  
Get cold when you are near me  
Moon light's the only time  
Bet you like I'm the capable type

I won't let you drain me  
I reason with a demon, he obeys me  
Before you go and try your best to save me  
We're playin' with a capable type

You will not fulfill me  
Pour me up and you are planning just to spill me  
Falling in the deep, and you don't thrill me  
You think that I'm a miserable type

I keep looking out the window  
I keep finding stuff to fight  
I keep looking out the window  
I don't, I don't wanna play nice

I keep looking out the window  
I keep finding stuff to fight  
I keep looking out the window  
I don't, I don't wanna play nice

I keep looking out the window  
I keep finding stuff to fight  
I keep looking out the window  
I guess I'm just the capable type

Bet you like I'm the capable type

Bet you like I'm the capable type  
Bet you like I'm the capable type
