

Lucky

Momma

How'd I get so lucky?
Next to you in shades of green
My whole life's a trophy
I picked the golden MVP

If I drive in four days time
My highway hills could reach the east
If I drive in four days time
I'd pick you up from hometown streets
Buckle up, I'll be there

I need you near to me
We can't keep getting separated

How'd I get so lucky?
Next to you in shades of green
If I drive in four days time
I'd meet the face that can't compete
Buckle up, I'll be there

I need you near to me
We can't keep getting separated
Can we forget how unsafe it seems?
We can't keep getting separated

I need you near to me
I need you near to me
I need you near to me

How'd I get so lucky?
How'd I get so lucky?
How'd I get so lucky?
How'd I get so lucky?
