

Levitation

Momus

As long as I don't look down
Everything is fine
I can do this thing because, you see
Once upon a time
I practiced levitation
In a previous incarnation
Suspended animation
No obvious solution
Sleight of hand and fleet of foot
Unnatural suspension
In a soluble solution
I practiced levitation
Swimming in a soluble solution
I practiced levitation
Well I can do this thing because, you see
The gravity applies to me
But only in good time
And one day I'll come down
Hovering after zooming off a cliff
As long as I don't look down
Everything is fine
Everything is fine
In a previous incarnation
Lev-lev-lev-levitation
In a previous incarnation
Which now seems far away
I could walk around in pavements

And breathe in peoples' way
I was lighter than air
Had my head in the air
I suspended disbelief
I ran right off of that cliff
Talking 'bout lev-lev-lev-levitation
Lev-lev-lev-levitation
I'll come and stand behind you
No matter where you were
Without you looking nervous
And starting to swear
In a previous incarnation
Lev-lev-lev-levitation
As long as I don't come down (lev-lev-lev-levitation)
Everything is fine
I can do this thing because, you see (lev-lev-lev-levitation)
Once upon a time
I practiced levitation
Lev-lev-lev-levitation
Lev-lev-lev-levitation
But as long as I don't come down
Lev-lev-lev-levitation
Lev-lev-lev-levitation
Lev-lev-lev-levitation
