

Trust Me, I'm a Doctor

Momus

Trust me, I'm a doctor
A specialist in the ailments
Of the actress

Trust me, I'm a doctor
And you suffer from a rare form
Of attractiveness

Trust me if I seem to touch you
During the course of the cure in a sexual way
You see I long since lost all interest
In feelings of pleasure and pain
I don't ever expect to feel those feelings again
But you still may

Trust me, I'm a doctor
Disregard my appearance
On the blacklist

Trust me when your boyfriends
Jealously accuse me
Of malpractice

And trust me if I seem to touch you
During the course of the cure in a sexual way
You see I long since lost all interest
In feelings of pleasure and pain
I don't ever expect to feel those feelings again
But you still may

I am old, there is no hope left for me
But I know that there may be hope for you
I am old but I know that you could pull me through
If we operate, if we operate immediately

Touch me, I'm a doctor
My pulse is fast
My arms are very thin

Kiss me, hold me
Help me break this
Frozen sea within

And touch me if I seem to touch you
During the course of the cure in a sexual way
You see I long since lost all interest
In feelings of pleasure and pain
I don't ever expect to feel those feelings again
But I just still may

But I just still may
Yes I just still may
I just still may
