

And on the mountain tell me there's a lady
And in the lady tell me there's a baby
And in the baby tell me there's a blood cell
And in the blood cell tell me there's a T cell

And in the T cell tell me there's an empire
And in the empire tell me there's a vampire
And in the vampire tell me there's a baby
And in the baby tell me there's a lady

And in the empire tell me there's a mountain
And on the mountain tell me there's a fountain
And in the fountain tell me there's a vampire
And in the vampire tell me there's an empire

And in the empire tell me there's a baby
And in the baby tell me there's a lady
And in the lady tell me there's a baby
And in the baby tell me that I'm crazy!
