

An Endless Cycle

Mon Rovîa

Sit awhile and talk with me, baby
Been some time without you, lately
But my heart's racing
There's no mistaking
You drive me crazy
But I'm still keeping
Thoughts of you
So just sit awhile with me baby, maybe

I'm stuck watching the snow fall
Wish I had your whole heart (Damn)
Got me wrapped 'round your finger
Tell me when I get a little freedom then

Yeah, you got me all fucked up
Sitting alone in the park again
Everyone's falling in love
While I'm falling apart again
It never really ends

Sit awhile and talk with me, baby
Been some time without you, lately
But my heart's racing
There's no mistaking
You drive me crazy
But I'm still keeping
Thoughts of you
So just sit awhile with me baby, maybe

No I never really wanted it to be like this
But it's over easily, never strong
But you came into my world and made it so vibrant
Yeah that's the truth, I wish I was wrong

Yeah, you got me all fucked up
Sitting alone in the park again
Everyone's falling in love
While I'm falling apart again
It never really ends

Now I'm sipping on a cold world
Losing my oxygen
I swear if I don't see you
Gonna never wake up again
It's how it's gonna end

Yeah, you got me all fucked up
Sitting alone in the park again
Everyone's falling in love
While I'm falling apart again
It never really ends

Now I'm sipping on a cold world
Losing my oxygen
