

Devil Swear I've Seen

Mon Rovîa

Devil swear I've seen
Negative 45 swells
Only ever comes at night
Something like a cold
Moves me from side to side
Mood swings (Mood swings)
Heart break (Heart break)
Pretty little fires (Pretty)

And you said you were not ready
All this time, still
Said hold yourself steady
Now watch your heart feel
Now watch your heart heal

Thought I'd seen a light
Something I'd seen before
Your trigger would decide
You and I know well
This distance from wrong or right
I'm in
Too deep
I cannot deny

And you said you were not ready
All this time, still
Said hold yourself steady
Now watch your heart feel
Now watch your heart heal

And you said you were not ready
All this time, still
Said hold yourself steady
Now watch your heart feel
Now watch your heart heal
