

It All Ends When You Do

Mon Rovîa

Don't stop breathing
I need a little of you
This evening
Yes I'm starting
To give in to these feelings
I know you don't believe me
But you should know
My heart beats for you
My heart beat's yours

Same book
But we're on different pages
I feel like we been running and running around for ages
Lost all my vitals
But you never Noticed
I left myself open to you
How could I know all your motives
Lost for awhile
Save me the time
Just wanna see this through without losing our minds

Don't stop breathing
I need a little of you
This evening
Yes I'm starting
To give in to these feelings
I know you don't believe me
But you should know
My heart beats for you
My heart beat's yours

Been awhile
See you when you see then
It's all right
Just want to make amends

Don't stop breathing
I need a little of you
This evening
Yes I'm starting
To give in to these feelings
I know you don't believe me
But you should know
My heart beats for you
My heart beats for you
Don't stop breathing
I need a little of you
This evening
Yes I'm starting
To give in to these feelings
I know you don't believe me
But you should know
My heart beats for you
My heart beat's yours
