

I could feel you pulling, take me underground
I feel like playing, you are my playground
Don't leave me, darling
Don't leave me, darling
Don't wanna be alone

Hold your breath, upgrade you
Break your momma's spine
If you go and leave now I'll never get you back
Don't leave me, darling
Don't leave me, darling

I'll never find
A girl like you tonight
The bar is closing and I don't wanna go home

Here we are, not looking
Drain each other's eyes
If you see what I see should be no surprise
Don't leave me, darling
Don't leave me, darling
I don't wanna be alone

I'll never find
A girl like you tonight
The bar is closing and I don't wanna go home

Let me stop the thing now
And that's just there to say
All I've been wishing is that you don't go away
Don't leave me, darling
Don't leave me, darling
