

In the Middle

Mona

Strung out on the floor
Sitting there naked
You're shaking like a chill
You're shaken up for sure
All you can afford
You didn't give it but they take it
Was it worth the thrill?
It's always shoot to kill, until a little in the middle

So you go, go
A little in the middle
But you know, know
A little in the middle
Shouldn't feel so right
But it feels alright
You go, go
A little in the middle
But you know, know
A little in the middle
Shouldn't feel so right
But it feels alright

Talking in tongues
Can you explain it?
You said you never felt
Never felt this way before
But when it's said and done
Come on, let's face it
Your hands are in air
And your face is in the floor, once more a little in the middle

So you go, go
A little in the middle
But you know, know
A little in the middle
Shouldn't feel so right
But it feels alright
You go, go
A little in the middle
But you know, know
A little in the middle
Shouldn't feel so right
But it feels alright

I feel them pullin' me this way
Pulling me there
I feel so little
Stuck in the middle
Stuck in the middle
I feel them pullin' me this way
Pulling me there
I feel so little
Stuck in the middle
Go, go, go, go, go

So you go, go
A little in the middle

But you know, know
A little in the middle
Shouldn't feel so right
But it feels alright
You go, go
A little in the middle
But you know, know
A little in the middle
Shouldn't feel alright
But it feels alright
