

Walking through the street making some noise
Be above now see us bringing on toys
Dont you know we got a choice?
And we go, go, go living like lovers
And we fight, fight, figh like we are in war
Then they know, know the rain wont wet us
And we can, can, can rich too
If you got a smile but you dont know way
Its easy to do when you live a life
Put it that way for you and I
And you know go, go, go living like lovers
The we, by, by, by like were all alone
Then they know, know the rain wont wet us
And we can, can, can rich too
If let em through we come and say it going down, down, down
They act like they own the place
See the look from their face they, theyre going down, down, down,
n, down, down, down
And we go, go, go living like lovers
And we fight, fight, figh like we are in war
Then they know, know the rain wont wet us
And we can, can, can rich too
And you know that we arrive to
And you stay, never be the time when we
