

## Late Night

Mona

There they go look at them pass all the little boys try to play  
grab bass  
'It's gonna be a late night' she said  
'It's gonna be a late night' she said  
All she can do are tears in her eyes, do for the cash whatever  
they like  
'It's gonna be a late night' she said  
It's gonna be a late night again, let's go  
Where's your self esteem, pay on her bills, down on her knees  
'It's gonna be a late night' she said  
It's gonna be a late night again  
And she knows  
she should be somewhere else in the world,  
but she stopped right here  
And she knows,  
I will never blow that she sees  
but she wants me to stay here

'It's gonna be a late night' she said  
'It's gonna be a late night' she said  
'It's gonna be a late night' she said  
'It's gonna be a late night' she said  
It's gonna be a late night again  
It's gonna be a late night again  
It's gonna be a late night again  
It's gonna be a late night again  
And she knows,  
she should be somewhere else in the world,  
but she stopped right here  
And she goes out there she sees,  
but she wants me to stay here  
There they go look at them pass all the little boys try to play  
grab bass  
'It's gonna be a late night' she said  
It's gonna be a late night again let's go
