

Like You Do

Mona

Everybody talks and nobody listens
Don't you know now it's easy to miss
When love comes and it leaves so fast you
Leave it alone even for a while
You'll soon see a face without a smile
Saying I can't go on living like you
Do do do do do do do
Now I don't wanna talk about
Everything we did before
I just wanna say now
I wanted more and more
Yesterday close its eyes
I could never say goodbye
Like you do, like you do
Just going through my mind
Trying to remember
Back a long time
Before the September
Why can't you just fall in
Love with a friend
I see the hand that you're holding
Everything I'm not so now
You're knowing
I can't go on living like you
Do do do do do do do
Now I don't wanna talk about
Everything we did before
I just wanna say now
I wanted more and more
Yesterday close its eyes
I could never say goodbye
Like you do, like you do
We're on a war
So far from home
Keep holding on
It's always changing
And come my way
Leave unafraid
Until they say it's always changing
I can't go on living like you
Do do do do do do do
