

## Me Under

Mona

Kicking dust in my eye  
She picking fights tonight  
And she telling her lies  
But just a combat alive  
And she coming just to scream  
A minute or a while  
And she know she just a fling  
And I take her for a ride  
And I feel you pulling me under  
I'm going everything nice and slow  
They say I'm moving too fast  
Yeah you better slow down  
But take a look at me grasp  
I'm getting everything I want in town  
And these motherfuckers coy  
But I'm too poised to know  
Cause ain't short with the boys  
But like a man I pull it all  
And I feel you pulling me under  
I'm going everything nice and slow  
I wanna go down to the river  
Wash up everything that I know  
But I see you stand  
Trying to be a man  
Whatcha gonna do?  
Whatcha gonna do?  
You your voice like a little boy  
Whatcha gonna do?  
Whatcha trying to pull?  
And I feel you pulling me under  
I'm going everything nice and slow  
I wanna go down to the river  
Wash up everything that I know  
And I feel you pulling me under  
I'm going everything nice and slow  
I wanna go down to the river  
Wash up everything that I know  
I'm going under  
I'm going under  
I'm going under
