

Us & Them

Mona

Everybody's got those times of good times, of bad times

Everybody waits in line all the time, lose your mind

Lalalalalala

It's us, baby

Lalalalalala

Versus them again

Breathe in, breathe out

Everybody feels it

You need it now

Everybody feels it

Breathe in, breathe out

Everybody feels it

You need it now

Everybody, everybody

I can see the enemy running

You and me, keeping [?]

You and me, being what we wanted

Everybody's got those days, those good days, those bad days

Everybody got their ways, day to day, bye bye-bye

Lalalalalala

It's us, baby

Lalalalalala

Versus them again

Breathe in, breathe out

Everybody feels it

You need it now

Everybody feels it

Breathe in, breathe out

Everybody feels it

You need it now

Everybody, everybody

I can see the enemy running

You and me, keeping [?]

You and me, being what we wanted

I can see the enemy running

You and me, keeping [?]

You and me, being what we wanted

Breathe in, breathe out

Everybody feels it

You need it now

Everybody feels it

Breathe in, breathe out

Everybody feels it

You need it now

Everybody, everybody
