

Girls Outside

Monaleo

Mm-mm, mhm

Yeah, me and my girls outside

Tell them boys they better pray (Boys they better pray)

Tell them boys stay out the way (Boys stay out the way)

Tell 'em ain't nobody safe, on my mama, on my gang (Ain't nobody safe)

We gone put it in they face (On my gang), yeah

Me and my girls outside

Can't give no nigga the time of day

I can't let no nigga cuff me, no, not now or later

And I'm still hurt, it ain't no mercy how these niggas played me

Don't need a nigga for nothing, that's how my mama raised me

Once you cross me, can't forgive you for the pain, no

Can't explain what's going on inside my brain

But I'm tired of loving you with no gain

My ex just called and said he misses me, oh, nigga please (Ooh)

Loving you is a disease, yeah

You can get off your knees and pack up all your things (Ooh)

I even took your name off the lease, I put your shit outside

You will never get a second chance

Knowing that I love you, hate I let you get inside my head

Gave you all my heart and then you crushed it like a soda can

And I still love your mom, just wished she woulda raised a better man

You fucked up the plan (You fucked up the plan)

I don't think you understand that I'm one of a kind

I wish I would've listened when they said that love was blind

So I'm writing you this letter while this pain is on my mind

I tried with you (Ooh-ooh), yeah

Thought that we had a connection

Even cried with you, the love died, tears dried

Finna do my hair and makeup then I'm headed with my girls outside (Ooh-ooh, oh, woah)

Can't give no nigga the time of day

I can't let no nigga cuff me, no, not now or later

And I'm still hurt, it ain't no mercy how these niggas played me

Don't need a nigga for nothing, that's how my mama raised me

Once you cross me, can't forgive you for the pain, no

I can't explain what's going on inside my brain

But I'm tired of loving you with no gain
