

Sober Mind (A Colors Show)

Monaleo

Sober mind, sober mind
No, I don't mind a sober mind
A sober mind
Sober mind, sober mind
No, I don't mind a sober mind
A sober mind is fine

The mind is a terrible thing to waste
So you should tighten up
And when you get that through your head then you might lighten up
I know you tryin' but it don't seem to be quite enough
The sun is shinin' but it don't seem to be bright enough
This little mind of my mine, it take time
If I ever get to thinkin' too much, I take five
I be damned if I let a bad thought take mine
Protectin' my peace like the laws at the state lines
Kill everything or kill nothin' at all
The bigger the obstacle then the bigger it may fall
Before you get to run, you gotta walk after you crawl
Never wave your white flag, just put your back against the wall
And keep swinging
If you got a microphone, you need to keep singing
In other words if you alive, you need to keep breathing
If you holding onto life then you should keep clinging
Destruction calling, I just let the phone keep ringing

Sober mind, sober mind
No, I don't mind a sober mind
A sober mind
Sober mind, sober mind
No, I don't mind a sober mind
A sober mind is fine

Breathe through it, breathe through it
This ain't nothin', you can breeze through it
Life is like a book, you gotta read through it
And if at first you don't succeed then you can re-do it
So stop payin' attention to what she doin', he doin'
How you expect to keep movin' forward, you lookin' back?
You went from overlooked, now you the one they lookin' at
Look at that
You the one they call to get they bookings back
'Cause when the product dope then you the one they call to cook the crack
Slow boogie better no boogie, believe that
If you got goal then set a plan so you'll achieve that
If it don't leave you better off then you should leave that
If it's comin' out your mouth then watch your words, make sure you mean that
You gone complain or get it done
Face the pain or you can run
Whichever one you choose, just make sure you can live with it
Take a plane or take the bus
Either way it's not a rush
It's not about the time it's what you did with it

Sober mind, sober mind (Sober mind)
No, I don't mind a sober mind (Sober mind)
A sober mind

Sober mind, sober mind (Sober mind)
No, I don't mind a sober mind (Sober mind)
A sober mind is fine

It's takin' a long time but I don't mind
And it's been tough ride but I don't mind
It's been a hard climb but I don't mind (Nope)
I don't mind (At all)
I don't mind
Keep my head up, I'm maintainin' a sober mind
And I'm fed up but I'm keepin' a sober mind
I can't let up, I gotta keep a sober mind
A sober mind is fine
