

Glow Vision

Monarchy

I'm driving though red lights
My mind is on the prize
I've been floating through doors
Could be a satellite
Chasing you through the night
My heart aching for more

But you're hard to love
You started as a friend but now it's hot
Hard to love
Don't tell me that you wanna call it off

I got this glow vision
I see a future in us if I tell you that I love you just once
I got a new position
I'm working on this rhythm
Gonna learn to trust the things I can't touch
I got this glow vision

I'm walking different streets (zombie)
Walking to the beat
I'm shining with your attention
Feeling tall and chic (so chic)

But when I try to speak
The words they choke my intention

But you're hard to love
Crying on the phone you're all cut up
Hard to love
Don't tell me that you wanna call it off

I got this glow vision
I see a future in us if I tell you that I love you just once
I got a new position
I'm working on this rhythm
Gonna learn to trust the things I can't touch
I got this glow vision

Vision like a flashlight
Rolling up and gone
No more lit by gaslight
No more hanging on

Fighting ain't my calling
Feels is all i know
With you I be all in
High up in the gold
