

## Basket Case

Mondo Generator

Flying until now  
Falling is how we live to die  
Watch, I burn to the ground  
The whole thing down  
Riding with the unsound  
Rolling with the profound  
Dot spins round and round

Watch it burn to the ground  
The whole thing down  
Basket case, basket case  
I found nothing, I found you  
None of this and everything too  
I'll f\*\*king kill you  
Watch it burn to the ground  
The whole f\*\*king thing down  
Basket case, basket case

Basket case  
Lost in space  
Basket case
