

Basket Case

Mondo Generator

Flying until now
Falling is how we live to die
Watch, I burn to the ground
The whole thing down
Riding with the unsound
Rolling with the profound
Dot spins round and round

Watch it burn to the ground
The whole thing down
Basket case, basket case
I found nothing, I found you
None of this and everything too
I'll f**king kill you
Watch it burn to the ground
The whole f**king thing down
Basket case, basket case

Basket case
Lost in space
