

Moves

Mondo Rock

Moves are underway
Moves that are underhand
It's under your skin
Suddenly you understand
Come the revolution
You'll surrender your shoes
Surrender your feet
Surrender to the beat

Moves, you're making moves
Hoping that your luck improves
But just as you go to take her hand
She turns around and listens to the band
And moves, she moves

Moves are coming up
Yeah, moves are going down
It starts out as a cult
And suddenly it's all around
Come the revolution
You'll abandon your blues
Abandon complete
Surrender to the beat

Moves, you're making moves
Hoping that your luck improves
But just as you go to take her hand
She turns around and listens to the band
And moves, yeah she moves

Moves are taking off
Yeah, moves are taking place
And coming up soon
We'll be moving face to face
Come the revolution
You'll surrender your shoes
Surrender your feet
Surrender to the beat

Moves, you're making moves
Hoping that your luck improves
But just as you go to take her hand
She turns around and listens to the band
She turns around and listens
She turns around, and moves

Come the revolution
You'll abandon your blues
Abandon complete
Surrender to the beat

Moves, you're making moves
Moves, you're making moves
Moves, you're making moves
Moves, you're making moves
Moves, you're making moves
Moves, you're making moves
Moves, you're making moves
