

Trash

Mondo Rock

My girl says go out, get me some trash
Trash trash trash trash
I say get your own don't you take my
Trash trash trash trash
Every day my body says it needs more
Trash trash trash trash
I work my life to get a big pile of
Trash trash trash trash

Cities slide into the sea
Satellites become debris
Back down here us masterminds are working on our plans
To make this trash a part of the life of every man

Oral, aural, Olfactory
Trash trash trash trash
Got no value, but I want that trash
Trash trash trash trash
Fabulously overpriced that
Trash trash trash trash
Hey what's the matter? Can't you score some trash
Trash trash trash trash

I'm hustling to make some cash
Converting energy to mass
Flashing on the media
The message has come down
We need more trash
Just as sure as the world goes around and around

Might as well confess
The entire planet is obsessed
Make it clear you only want the best
Go trash the rest

I'm hustling to make some cash
Converting energy to mass
Way down here us masterminds are working on our plans
To make this trash a part of the life of every man

Might as well confess
The entire planet is obsessed
Make it clear you only want the best
Go trash the rest
