

Believe

Moneen

Did you wake up today to find the strength to say
The world is your own?
Did you look up today to find the words to say
The world is your own?
To be left here alone your own way

You gotta believe, you gotta believe
And you'll find your own way
And you gotta smile, you gotta be strong
You gotta believe in your own way

Do you still feel sideways?
Well, damn this backwards way
Way I'm thinking
Well I stopped thinking your own way

But you gotta believe, you gotta believe
And you'll find your own way
And you gotta smile, you gotta be strong
You gotta believe in your own way

In the south
I feel cold and alone, alone
Whoa, whoa, your own way
Whoa, whoa, your own way

And you gotta believe, you gotta believe
And you'll find your own way
And you gotta smile, you gotta be strong
You gotta believe in your own way
You gotta believe in your own way
You gotta believe in your own way
