Lighters

Moneen

I was hoping that you could bring back what I, back what I...
You said that you could bring back what I, back what I never ha
d.
What I never had and you're the worst.
The worst guide that I've ever had. That I've ever had

The thought scares you down off of your high
What ever happened to when we lived for the day before it ends?
Before it ends.

Now you know life's little tricks. Life's little lies.
What ever happened to...
I used to think that I would never really get to see a time
when you'd live for the day...
before it ends.

Now you know the thought scares you down off of your high
What ever happened to...
I used to think that I would never really get to see a time
When you'd live for the day... before it ends.
