

Active Swiper

Money Man

(Alawais)

Tryna avoid getting incarcerated (LoveUrel)
White collar king, I'm sophisticated
She just want dick and some conversation
Show you the ropes, you got orientation
Victims online give me compensation
Scam so much, we got an organization
Product flew with me from Indonesia
Busting checks with me, bae, 'cause I really need you
I need thirty percent, and the rest, you keep it
Don't you tell nobody, this is our lil' secret
Having beaucoup identities at disposal
And I came with amenities out my mobile
And my pool infinity, bitches floatin'
I'ma need M&M and I'm hacking gross
Got a bag on the line, I'm an active swiper
Hack the phone and I drop off an active virus
Wipe three different sites, I'm a major buyer
With this binary, my Glock on rapid fire

SSN, birthday, then debit card
Be careful 'cause that is a serious charge
Six different Androids, they fully charged
Ten bitches phishin', they workin' hard
Fifty fatalities from carbon wars
Whatever gadget you want is yours
Leave a jack boy in the city morgue
I'm only fuckin' with natural whores
Beefing, but I'll kill a carnivore
My syndicate wipe out department stores
Come on, let's have a financial war
You pussy niggas don't scam enough
My bitch was average, I glammed her up
Only honorable niggas can stand with us
East German bitch said she like it rough
Got the Secret Service tryna capture us
Tryna take a trip I'm eatin' capsules up
Wipe out a bank, we gon'-
Wipe out a bank, we gon' close 'em down
Wipe out a bank, we gon' close 'em down
Wipe out a bank, we gon' close 'em down
Wipe out a bank, we gon' close 'em down
Wipe out a bank, we gon' close 'em down
Pull out that stick, I'ma hose 'em down
Pull out that stick, I'ma hose 'em down

Tryna avoid getting incarcerated
White collar king, I'm sophisticated
She just want dick and some conversation
Show you the ropes, you got orientation
Victims online give me compensation
Scam so much, we got an organization
Product flew with me from Indonesia
Busting checks with me, bae, 'cause I really need you
