

Glorified

Money Man

I jump out the home with the stick and it modified
Show em hunnids they get horrified
Nigga in the streets you know I'm glorified
Different spots like I'm a fucking cheetah
Flying high like I'm a bald eagle
I learned the hard way just like the [?]
Smokin' King Kong I got a green filter I got a whole load
I weigh some THC all on my fingers
I weigh some CBD all on my Gucci
Fuck it
In my hood they gon' salute me
Fuck it
I might have to go and coop it
Run it
She just drippin' juice [?]
When I hit the OG I don't think I'm human

Trap house jumpin' like a frog and leapin' open up the door cho
ppa preachin' like I know I can reach him

What's that a cuban with VS
I just hit the bag UPS
She rubbin' the hair on my chest
I feel like a Cuban connect
I keep me a Glock like I serve and protect I'm a cop I protect
I just need an address and I'll have it in 48 hours or less
My Diamonds they came from [?] I got paint on my eyes
I just work on her leg and she open her thighs
Open the counter a bell in surprise
Open the door it's a choppa starin' at you in the face
I just flooded the face
Feds finna come we gonna clear out the place
I got armor for days I got outta town plays
Just like a barber the stick finna cut him a fade
They tryna' come and ride a nigga wave
Ima get money till I hit the grave
I don't participate unless paid
I hit lil mama and said it was great
I got more on the way they gonna go out today
I told the plug let me assemble the plays
I'm just gonna shoot till an example is made
I split the shippin' alone
