Money Man

Trauma man, Trauma man...

Too many niggas be hatin' on me
Too many niggas be schemin' on me
Do what they said so I keep it on me
Lil shawty bad I had to hop on down
I drop a song and then I sell a pound
I drop a tape and then I start a grow
She said "I fuck with you" I said "I know"
I just proceed to go blow up the phone
I just proceed to go roll up the pressure
That nigga soft he gonna fold under pressure
If he knew better then you would do better
You let him finesse you you should of do better
Lil shawty pointed and me and she said "you the nigga"
I told lil shawty it don't get no realer
I told the plug that concealer be [?]
Pop me a seal I consistently civil

These niggas always consistently hate
They always scared to say it to a nigga face
She just gon' fuck a nigga really great
These niggas sour they fuck up my energy
I got a body and I got a [?]
Me and these light niggas ain't got no chemistry
He making me nervous that nigga too finicky
Lil shawty body look just like a [?]
I'm rocking a shooter made from a cobra
I hit that pressure I feel like an alien
Ballin' so hard they should build us a stadium
Just hit a bitch she was black and Armenian
I said the woods ain't no savin' him
If he knew better then you would do better
He wore my pockets so I gave him interest
These niggas don't wanna see you success
I buy a bell and I drop me a tape
Trappin' was something I could not escape
If you not official then we can't relate
I left a planted an eighth
I smoked it all the down to the MIA
I cut a ball and I don't need it weighed
I'd rather shoot at you then catch a fade

Too many niggas be hatin' on me
