I been trappin' out and sliding, yeah, the same day
Me and Shooter, we don't wanna finesse the same play
Oh, you feelin' me? Well, bae, I feel the same way
Oh, you fuck with me? Well, bae, I feel the same way
You know it's BC shit for life, yeah, nigga, the gang way
I ain't talkin' triple-zero, we like gunplay
You know these bad bitches all be feelin' my flow and sway
You know she quickly let me hit when she heard my mixtape
It's like a nigga been an underdog my whole life
It's like these niggas been tryna shit on me my whole life
Made 200K on Twitch, I'm playin' Fortnite
All my players stop complainin', I told 'em seize life
I can never tell on my people, I'm not sayin' name
My mama always told me, "One day you're gonna be big time"
And I don't know if I shoulder you
From all the loud I sold through you
When other people were cold to you
I made sure you were comfortable
I can't believe these hoes be takin' my heart for granted
I'm wearin' bezel busted down and solid granite

I'm just a solid nigga, I can't do no antics
I like my females all bilingual, they speak Spanish
Even though it's hard for me sometimes to understand this
I cut my last plug off and he won't understand this
Lil' mama booty was small, I made her done enhance it
I hope the pack make it through the mail, don't wanna chance it
If we fuck don't tell the internet, keep it a secret
I will plead in for growth season
Now I'm eatin' every weekend, they got me sellin' out
And I just be mailin' it out
I need income for when rent comes
This shit's so fuckin' loud it hurt my eardrums
These niggas used to laugh at me like I was lazy
It felt like the only person who was down was my old lady
I'm so damn crazy, I push Mercedes
Catch me, I'm wavy

I been trappin' out and sliding, yeah, the same day
Me and Shooter, we don't wanna finesse the same play
Oh, you feelin' me? Well, bae, I feel the same way
Oh, you fuck with me? Well, bae, I feel the same way
