

It's a full moon tonight, it might get violent  
All you see is blue and red lights and you hear sirens  
'Nother nigga dead in our community, they cryin'  
He say no matter what he do, he can't help it, he keep tryin'  
This shit so strong, as soon as niggas smell it, they start buyin'  
I might do a lot of things, but one ain't testifyin'  
The plug inside the V got me a five, these are acquired  
We been doin' cardio, let's go until we tired  
I'ma get that shit by any means, that's how I'm wired  
I been loadin' up the magazine, I open fire  
If you Circle, then I'll give you my all, yeah, my entire, yeah

On the phone, I done found me another way  
Had to run up a hundred in Michael J's  
Niggas' shit, it be trash, it be microwaved  
I might hit a check, get a hundred K  
I want the motherfuckin' income  
Now these niggas got red rum  
You hear the motherfuckin' war drums, yeah  
I'm talkin' bloody, bloody murder  
He left a stain on the stick  
So much pain, I could weep  
Yeah, I done seen the reaper slidin'  
Me and shawty just vibin'  
Tryna swipe and survivin'  
Tryna swipe and I'm all in  
Good exotic got me coughin'  
More money, less talkin'  
Damn, they done white chalked 'em  
Laid on 'em, then they stalked 'em  
Run 'em down, then they hawked 'em  
Caught 'em late night walkin'  
Sad, sad night, no more life
