

I learned rule number two before rule number one
 Life ain't sweet, it's a stale honeybun
 Two ears one mouth, listen before you speak
 Two brains north and east, so it take twice as long to think
 I'm used to ice my wrist, can freeze a skating rink
 Don't ask the price, I dished it out just like the sink
 I'm from the concrete, but I blossomed like a rose
 Lookin for the snakes in the grass they probably by the hose
 Lets celebrate with a mil, even if the only thing we celebrate is that I can
 pick up the bill
 With no hesitation it feels amazing
 I was depressed, poppin pills
 But that's long gone, couple years
 My whole career I faced fears, its divine God placed me here
 These days, these niggas get caught and lie to they ho
 But you told the truth to the po pos, man that ain't how this shit go
 I put my new bitch on payroll, and told her play her position
 I paid the plug in pesos, he bought his wife a new kitchen

10, 20, 50, 100s I want all faces
 Trynna set the record straight before the law take me
 I got rich, beat the trail, still got tribulations
 I handle business on my terms, these my stipulations
 Shit been all crazy crazy, all crazy
 Shit been all crazy crazy, all crazy
 When I was fucked up I had nobody to call baby
 Now I'm covered in these diamonds you can all Allstate me

Smokin good and sippin syrup keep my mind contained
 On the road, missing home, but I hide that pain
 Wanna spend time with your kids, its more than buying them things
 No matter how big I get, you know the grind remain
 My legacy, lets go from youngest to oldest
 Khamarion look like his mama but act like me he the boldest
 Damani a spittin image, they say that's me as a midget
 Mariah call a thousand times a day to say that she miss me
 Tariah and and Omarian birthday like a week apart
 Demario swear he runnin shit, that's my JR
 His mama say I treat them differently, that hurt my heart
 By Damaya being the oldest I put her in charge
 I got too hard [?] he must get help to write his raps
 I wish him well, deep inside I hope he tap
 If you know me, then you know thats gotta be cap
 I used to be broke now I get to that money sap

10, 20, 50, 100s I want all faces
 Trynna set the record straight before the law take me
 I got rich, beat the trail, still got tribulations
 I handle business on my terms, these my stipulations
 Shit been all crazy crazy, all crazy
 Shit been all crazy crazy, all crazy
 When I was fucked up I had nobody to call baby
 Now I'm covered in these diamonds you can all Allstate me
