

## Afta While

Moneybagg Yo

After while I'ma pull up in that Bentley  
With like three bad bitches in it  
After while I'ma go cop me a semi  
Say fuck everybody, give these niggas the business  
After while I'ma stunt on everybody  
Said I wouldn't do it but nigga I did it  
After while I'm talking all this Federal shit  
They gon' fuck 'round and give me a sentence  
After while (after while)  
After while (after while)  
After while (after while)  
After while (after while what?)  
After while I'ma go fuck on your bitch  
After while you gon' get hit in your shit  
After while I'ma go ice out my wrist  
After while you love so hard you get rich  
After while

You keep it real with some motherfuckers then after while  
You realize they don't hold loyalty, like my jewelry they watered down  
I know some young bulls who'll do whatever to whoever, go mode, Snootie Wild  
I just might spaz and catch me a murder like OJ did, beat the shit at trial  
After while I'ma pull up in that big B, for who can't comprehend, Bentley truck  
After while I'ma pull up on my jeweler, tell 'em bust the Rollie down like a  
bale of kush  
When I pop me a perc  
After while I jump in her, make her squirt, yeah  
I come up from the dirt  
Now I'm in Dallas balling like Dirk, yeah  
Running 'round spreading rumors, telling lies  
After while you get hit in your mouth  
Ten thou, all hundreds, small waist up, down in my Louis V pouch  
After while they gon' have to pay me least fifty K to come stand on they couch  
Finding a way out, changing my routes  
'Cause I'm straight up out the dope house

After while I'ma pull up in that Bentley  
With like three bad bitches in it  
After while I'ma go cop me a semi  
Say fuck everybody, give these niggas the business

Plug came, dropped the pack off, it's been awhile

They say you a real nigga, but your niggas foul  
Last time I seen a brick on grandma's floor, it's been a minute  
Last time I fucked your bitch, pussy so good I fell asleep up in it  
Check the banker how I know I'm with it  
Breaking news, they say he know I did it  
Shots fired, left you niggas in it  
Channel Five, ten people in it  
And I just bought me an FN  
And I just bought me a new Benz  
And I just bought me a crib in Calabasas  
I can't wait to move in  
I'm tryna meet a Kardashian (Khloe)  
I already know the Kardashians (know it)  
I'm tryna get out of trapping  
I'm tryna get into fashion  
Clap for my haters 'cause they made me proud  
Tell 'em suckers that they not allowed  
Bugatti on 'em out the wild
