

# Headstrong

Moneybagg Yo

Money, what's happenin'?  
Yung Lan on the track  
Poured up in this bitch with my brother Bagg, you heard me?  
Pressure

I was wrong, I was dead wrong  
Good heart but my head strong  
Tryna make somebody be  
Everything I wanted them to be  
Tryna make somebody see  
Everything they don't see in me  
Tryna make somebody see  
Everything they don't see in me  
Stayed down and I weathered the storm  
Needed helping hands, couldn't get an arm  
I expected them to move how I would if I was in they shoes  
Weigh the options 'fore you choose  
Save in case you gotta pay some dues  
Now I got more to lose  
But still got everything to prove (Hey)

Life's short but the bread long  
Loving hard had my head gone  
Streets hot, 'bout to head home  
Watch your mouth, that's a fed phone  
Look how far I came, I bust down the clock (Watch)  
The roof panoramic, I'm tryna see the top  
I dropped a lil' change to get rid of opps  
I flooded the block when they thought I wouldn't pop (Woo)  
Treat 'em how they treat you, had to learn (Learn)  
They was selfish, whole time, I was sharin' (Yeah)  
Showin' love but got hate in return (Damn)  
Now I'm heartless and I stand on it firm  
(I done seen it all with this money, no lie)  
First I lost it once, then I got it twice  
You was broke like me, watch how advice  
You can't live mine, go get you a life (Hey)

I was wrong, I was dead wrong  
Good heart but my head strong  
Tryna make somebody be  
Everything I wanted them to be  
Tryna make somebody see  
Everything they don't see in me  
Tryna make somebody see

Thinkin' back, I'm a veteran now  
No recollection of settling down  
Life term came with pedal and brown

Coppin' them squares and I'm sellin' 'em 'round  
Give you a picture, we smiling, we giggling  
Never was lookin' for sexual benefits  
Made a lil' traction, in love with the energy  
Cafe con leche, don't care, we got chemistry  
We in the Porsche, booty, of course  
Slim in her waist, cute in her face  
Her nigga press hate, be hatin' on Gates  
I don't got feelings, I married the game  
I feel like I'd rather have it this way  
Went got me a bag and I'm having my way  
Gaining weight, got my bread long  
I know you miss me, your head gone

I was wrong, I was dead wrong  
Good heart but my head strong  
Tryna make somebody be  
Everything I wanted them to be  
Tryna make somebody see  
Everything they don't see in me  
Tryna make somebody see
