

Pride

Moneybagg Yo

Let's put that bullshit behind us
Let's go where they can't even find us
Let's take it back to when I was breaking down dope in the trap baby you were my rider
Let's take it back to remind us
Before the fame and the cameras
Fuck it let's boost up the standards
Now that them haters can't stand us
We act like we don't wanna talk to each other
Let's put our pride to the side
We act like weon wanna fuck with each other
Let's put that pride to the side
Come hop in the wraith with a nigga
Look up, it got them stars inside
You got too much of that pride
You need to put that aside

You need to stop all that bullshit
Like you wanna talk to a nigga
Like you wanna rock with a nigga
Be at the top with a nigga
Call shots with a nigga
Flex and floss with a nigga
