

# Guess Who's Gonna Get Some Tonight

Moneybrother

I got out  
I got out and now it's two a.m., but  
Ooh, how I long for the night  
And every morning  
Every morning they just don't understand, but  
Ooh, how I long for the night

I got out  
And I never wanna go back again, but  
Ooh, how I long for the night  
Like every morning  
It doesn't matter 'cause it always the same, but  
Ooh, how I long for the night

And there we go, let's be quiet  
Beyond this point it's hard to tell  
We don't forget about last week  
And they remember us as well  
'Cause me and my buddies  
We don't want any trouble with them guys at all  
But I hear 'em talking  
I see them moving up and down the boulevard  
All right, hold tight  
All right  
Guess who's gonna get some tonight
