

I Know It Ain't Right

Moneybrother

I know it ain't right
In the evenings shivering light
It's just so
A few hours left to go
Circumstances cut us short
Hold on just a little more
Did not work out the way we planned
It slipped right out of my hand
It's true
Nobody loved you like I do
(They don't loved you like I do)
And it ain't over, no
It ain't over now I know
(It ain't over now I know)
And the sun that's setting tonight
Might be the last one that we'll see
But we'll get just another sunrise
Cause we won't spleep tonight
Girl, we won't sleep tonight
For sure, it' getting late, I should be going
Here comes hard times, girl, and the dark clouds will
keep growin
Circumstances cut us short
Baby, just a little more
Minutes keep on passing by
Don't speak, girl, we'll be alright
And the sun that's setting tonight
Might be the last one that we'll see
But we'll get just another sunrise
Cause we won't sleep tonight
No, we won't sleep tonight
And the sun that's setting tonight
Might be the last one that we'll see
But we'll get just another sunrise
Cause we won't sleep tonight
No, we won't sleep tonight
