

It's Been Hurting All The Way With You Joanna

Moneybrother

C'mon in, I got second thoughts
This evening, is just made for us
Lights are low
Tension's gone
I think it's time
We just get it on

C'mon in, I got second thoughts
Tired of whining,
I know it will work for us
Lights are low
Tension's gone
I think it's time
We just get it on

It's been hurting all the way with you Joanna
- We've been through all this before.
No, I can't take this no more, no more, no more
It's been hurting all the way with you Joanna
- We've been arguing and were stuck.
Now were stranded out of luck

I know that we're supposed
to have all these problems, right?
But tell me what is the point
in sorting them out tonight?
Lights are low
Tension's gone
I think it's time
We just get it on

It's been hurting all the way with you Joanna
- We've been through all this before.
No, I can't take this no more, no more, no more
It's been hurting all the way with you Joanna
- We've been arguing and were stuck.
Now were stranded out of luck

I don't want it this way
and neither do you
No more talk tonight, we don't need it
Can't you see it
can't you see it
can't you see it
It really hurts

It's been hurting all the way with you Joanna
- We've been through all this before
No, I can't take this no more, no more, no more
It's been hurting all the way with you Joanna
- We've been arguing and were stuck
Now were stranded out of luck

Things don't change but baby I have
- C'mon baby now let's fuck
Maybe I just ain't the one and baby
yes you should get going.

But tonight.
Let's just get it on.
