

## I Live for You

Mónica Naranjo

you have spoken in the sunset  
you have whispered words of comfort in the wind  
you know everything about me  
before my life began,  
you hold me in your hand  
you have walked these roads before me  
you have known the pain a broken heart can bear  
won't you help me now to trust you  
every single day,  
follow in your way  
i live for you,  
i live for you  
when i think of all what your love has done for me  
i live for you,  
never looking back to what life used to be  
i live for you and everything i ever thought was mine  
i'd give it all away to have you in my life  
i see you in the crystal waters  
and i have felt you in the dark of my despair  
you have shown a love unfailing  
a river running deep that's swelling up in me  
i know it's gonna take a sacrifice  
i want to see the world through your eyes  
i'll live for you  
the rest of my life
