

Commitment

Monica

It don't take much. A little affection
And some of your time
That's all that I'm asking for
Feels like this dream will never come true
I just want somebody who
Knows how to listen and give me attention
Who won't break my heart
Good intentions, I ain't hard to please
I don't need a lot
Just show me that you care

Can you be there when I need you most?
And when I say I don't
Make me feel secure
Forever

I just need someone to love me
When it's hard to, I can trust with all my issues
Someone who is patient and consistent
I need good sex and commitment
From somebody loyal, understanding
Who won't change up, take advantage
Of my emotions or my feelings
I need good sex and commitment

I don't want money, I'd rather effort
Somebody real, I can be myself around
Who makes me laugh, don't make me cry
Who knows what it means to sacrifice

If I'm having a bad day you know just what to say
I can show you all my thoughts and where my demons play
And you won't use them against me
You rather use them to lift me

Can you be there when I need you most?
Make me feel beautiful
Give reassurance
Forever

I just need someone to love me
When it's hard to, I can trust with all my issues
Someone who is patient and consistent
I need good sex and commitment
From somebody loyal, understanding
Who won't change up, take advantage
Of my emotions or feelings
I need good sex and commitment
