

## Down 4 Whatever

Monica

If I told you  
I'll be the one to make all your dreams true  
If I gave you  
All the things that make a man feel so good  
If I made you  
Commit to me before I give it to you  
If I had to  
I would change the world and make it feel love for you

If you do what say do  
I promise we can do whateva'  
You want to cause I want you  
Say love me & I'm down 4 whateva'

Now that it's clear I hope you understand the way I'm feelin  
And now that you're here you can't stop thinking of what I want  
to hear  
Now that it's true I can stop holdin' back and do what I do  
And when we're through I lay in your arms and say I love you

I believe we can be  
Whateva we want to no matter the dilemma  
And I believe that you will see it may take forever  
But we finally got together  
And I believe it will be all about us cause baby I love you  
And then they will see what we mean  
When we say we were together for eternity

Tell me what happens when you think of me  
Do you think of the things I'm feeling  
Cause when I see you I start trembling  
My knees start shakin' just glad to be with you  
Tell me your love will always be with me  
Promise me you would never leave  
And then take me where I want to be  
Cause I need you baby, I'm needin' you crazy (ohoh!I!!)
